

VANTIS BUSINESS RECOVERY SERVICES

**BoS (Antigua) Limited –In Receivership
(Part of the BETonSPORTS group of companies)**

This follows the Press Release dated 18 October 2007 confirming that Nigel Hamilton-Smith and Peter Wastell of Vantis were appointed as joint Receiver-Managers of BoS (Antigua) Limited on 20 September 2007, the appointment being made by the Financial Services Regulatory Authority ("FSRC") in Antigua, under Antiguan legislation. The FSRC maintains its role as a regulatory authority, distinctly separate from the duties, role and responsibilities of the Receiver-Managers.

The joint receivers are also separately acting as Liquidators (under UK legislation) of BETonSPORTS PLC, the London based parent company of BoS (Antigua) Limited, and various other group companies.

Recent press articles have sought to confuse the affairs of the two companies, and it should firstly be noted that the player-creditors' claims lie within BoS (Antigua) Limited. The Receiver-Managers are currently attempting to recover the assets of that company, for distribution in due course to all creditors, which include, but are not limited to, the player-creditors. There are certain other trade and inter-group liabilities which also need to be investigated and agreed. The Receiver-Managers have an equal responsibility under Antiguan law to all creditors of that company.

The joint Receiver-Managers will be seeking to verify creditor claims shortly, with invitations to lodge claims as appropriate.

BETonSports PLC did not directly conduct gaming business with players, and accordingly there are no player-creditors within that company. As a holding company based in the United Kingdom, it purely financed and administered its subsidiary companies under the control of its board of directors. The Liquidators have a separate and impartial duty, under UK legislation to investigate and agree the creditor claims of that company.

Vantis
London, United Kingdom
